DETAILED ACTION

This application is a 371 national stage filing of PCT/SG99/00079, filed July 16, 1999 which claims benefit to foreign application 9900811-2, filed February 18, 1999 in Singapore.

Applicants' after final amendment filed March 29, 2006, has been received and entered. Claims 1-7, 12, 12-18, 21, 22, 24-29 have been canceled. Claims 8, 10, 11, 19, 20, 23 and 30 are pending.

Election/Restriction

Applicant's election without traverse of group VIII in the reply filed on August 27, 2003 was acknowledged.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Claim Objections

Claim 7 has been cancelled.

Claims 8 and 23 objected to because it was generic and broadly encompasses non-elected inventions is withdrawn.

The amendment to the claims has obviated the basis of the objection.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 8, 10, 11, 19, 20, 23 and 30 rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention is withdrawn.

The amendments to the claims have addressed the basis of the rejection.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 19 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is withdrawn.

Upon review and consideration of the information supplied by Applicants' and Applicants' comments regarding "ornamental" fish the rejection is withdrawn.

Initially, it is noted that the broadest claim(s) encompass any kind of fish. With respect to "ornamental", the office agrees that the metes and bounds of the claim can be clearly

established for any particular type of fish given the knowledge in the art regarding ornamental fish.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

At the time of filing transgenic fish expressing a fluorescent protein where made and used, however the specific sequence of the promoter recited in the claim that provides the expression of the transgene was not known. The instant specification is the first to provide the novel promoter sequences set forth in the SEQ ID NOs, and is the first to use said sequences to generate a transgenic fish that expresses a fluorescent protein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
